

# Impact Payment Security Globally: Serve on the PCI SSC Board of Advisors

The PCI Security Standards Council (PCI SSC) is the authority on global payment card data protection. As strategic leaders, the PCI SSC Board of Advisors plays an active role in improving data security around the world.

## Opportunities

### INFLUENCE

Shape the global industry standards and solutions that deliver practical on-the-ground solutions for protecting payment card data.

### EXPERTISE

Provide your industry, regional and technical insight to PCI SSC plans and projects.

### LEADERSHIP

Represent the nearly 800 global PCI SSC Participating Organizations to ensure global industry involvement in the development of PCI Security Standards.

“Serving on the PCI SSC Board of Advisors provides a unique opportunity to work with like-minded professionals across various industries to help shape the ongoing development of payment security standards for the future.”

PCI SSC Board of Advisor Member

”

## Responsibilities

- Two-year commitment
- Attendance at six meetings
- Regular conference calls
- Engagement in Board-driven initiatives

A global view requires local understanding. Effective standards and resources are developed with practical, on-the-ground insights from industry leaders. Demonstrate your expertise and leadership and impact payment security globally. Serve on the 2023-2025 PCI SSC Board of Advisors.
